

# MEET SOME OF OUR NBCC ALUMNI

A PROGRAM DEDICATED TO CONNECTING COMMUNITY BUSINESSES WITH LOCAL STUDENTS

**BRAULIO GONZALEZ**

Braulio Gonzalez graduated high school and stepped straight into a position with Midstate Construction

His hard work and dedication along with the skills he learned in North Bay Construction Corps have set him up for success.

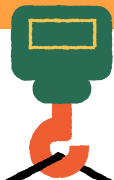

**BRAYDEN CARPENTER**

Brayden came to FRC as an intern, where they trained and introduced him to the field of General Construction. Brayden's great attitude and desire to learn led FRC, Inc. to feel that he would be a great fit to attend further training at the Carpenters Apprenticeship Program through the Carpenters Local Union #751. He successfully completed the pre-apprenticeship program, and he has now officially been hired as a carpenters' apprentice at FRC, Inc.

**DAVID WELLS**

Cheers to David for making the leap from intern to full-time team member! The three-month construction training the NBCC provided him with gave him a foundation to build upon. A huge thank you to RCX for investing in his growth and providing such valuable training and learning opportunities. The support of RCX has helped him shine.

**Get involved!**
